

*What distinguishes 202 Collision from other auto repair shops?*

Quite honestly I care. I personally go over every car after repairs have been made and before it leaves the shop.

During the repair process, I am in regular contact with customers to keep them updated on the status of the repairs. Repairs typically take seven days. Communication is key and I send text message updates.

Unfortunately, there can be supply chain issues and I want the customer to be well-informed each step of the repair process. There should be no mystery on what is going on with repairs.

*What insurance companies do you work with?*

We work with all insurance companies. 202 Collision is a Direct Repair Shop for insurance providers Geico, USAA, Hanover, Chubb and Utica.

*Can you tell us about your family?*

My wife is Marin. We have a daughter Shelby, a sixth grade student at Eisenhower Middle School and son Spencer, a third grader at Lincoln School. We are residents of Wyckoff for 8 years.

We enjoy going out to dinner together, trips to New York City and really look forward to and enjoy our yearly vacation to Long Beach Island,
